Eclipses 1924

There will be five eclipses in 1924, three of the Sun and two of the Moon, as follows:

I. Total of the Moon February 20, invisible in North America, except in the extreme northwestern part, at the beginning.

II. Partial of the Sun March 5, visible in the Antarctic region.

III. Partial of the Sun July 31, visible in the Antarctic region.

IV. Total of the Moon August 14, invisible in the United States.

V. Partial of the Sun August 23, visible in the Arctic regions and Northeastern Asia.

THE PLANETS

MORNING STARS:

MERCURY, Jan. 25, to Feb. 5, and Sept. 25 to Oct. 25.
VENUS, after July 1. MARS, until April 13. JUPITER, until March 9 and after Dec. 23. SATURN, until Jan. 23 and after Oct. 23.

EVENING STARS:

MERCURY, April 1-10 and Dec. 1-10. VENUS, until July 1. MARS, after April 13. JUPITER, from March 9 to Dec. 23, and SATURN from Jan. 23 to Oct. 23.

BRIGHTEST OR BEST SEEN:

MERCURY, during the periods given above when a Morning or Evening star. At such times he will be seen in the twilight zone, near the horizon about 1 hour 15 minutes before the rising of the Sun or same time after sunset, when a morning or evening star, and near the sunrise or sunset point of the horizon.

VENUS, May 26-31 and Aug. 1-10. MARS, Aug. 20-25. It will be many years before Mars will be as near the Earth as at this time. JUPITER, June 1-10. SATURN, April 15-25. URANUS, Sept. 5-15, and NEPTUNE, Feb. 5-15.

Barometer

A RISING BAROMETER.

A rapid rise indicates unsettled weather.

A gradual rise indicates settled weather.

A rise with dry air and cold increasing in summer indicates wind from the northward; and if rain has fallen, better weather may be expected.

A rise with moist air and a low temperature indicates wind and rain from the northward.

A rise with southerly winds indicates fine weather.

A STEADY BAROMETER.

With dry air and seasonable temperature indicates a continuance of very fine weather.

A FALLING BAROMETER.

A rapid fall indicates stormy weather.

A rapid fall with a westerly wind indicates stormy weather from the northward.

A fall with a northerly wind indicates storm, with rain and hail in summer, and snow in winter.

A fall with increased moisture in the air, and heat increasing, indicates wind and rain from the southward.

A fall with dry air and cold increasing in winter indicates snow.

A fall after very calm and warm weather indicates rain with squally weather.

To Tell Time of Tide

The time of high water at the places following may be found approximately for each day by adding or subtracting from the time of high water at New-York the hours and minutes annexed.

Rules for Computing Interest

The following will be found to be excellent rules for finding the interest on any principal for any number of days. When the principal contains cents, point off four places from the right of the result to express the interest in dollars and cents. When the principal contains dollars only, point off two places.

Four per Cent.—Multiply the principal by the number of days to run, and divide by 90.

Five per Cent.—Multiply by number of days, and divide by 72.

Six per Cent.—Multiply by number of days, and divide by 60.

Seven per Cent.—Multiply by number of days, and divide by 52.

Eight per Cent.—Multiply by number of days, and divide by 45.

Nine per Cent.—Multiply by number of days, and divide by 40.

Ten per Cent.—Multiply by number of days, and divide by 36.

Twelve per Cent.—Multiply by number of days, and divide by 30.

Fifteen per Cent.—Multiply by number of days, and divide by 24.

Eighteen per Cent.—Multiply by number of days, and divide by 20.

Twenty per Cent.—Multiply by number of days, and divide by 18.

Twenty-four per Cent.—Multiply by number of days, and divide by 15.

The Metric System

The Metric System of Weights and Measures has been legalized by act of Congress, July 18, 1896.

METRIC WEIGHTS.—10 milligrams make 1 centigram, 10 centigrams 1 decigram, 10 decigrams 1 gram, 10 grams 1 dekagram, 10 dekagrams 1 hektogram, 10 hektograms 1 kilogram, 1000 kilograms 1 metric ton.

METRIC MEASURES.—(One milliliter equals cubic centimeter.) 10 milliliters make 1 centiliter, 10 centiliters 1 deciliter, 10 deciliters 1 liter, 10 liters 1 dekaliter, 10 dekaliters 1 hektoliter, 10 hektoliters 1 kiloliter.

METRIC LENGTHS.—10 millimeters make 1 centimeter, 10 centimeters 1 decimeter, 10 decimeters 1 meter, 10 meters 1 dekameter, 10 dekameters 1 hektometer, 10 hektometers 1 kilometer.

APPROXIMATE EQUIVALENTS.

A meter is about a yard; a kilo is about 2 pounds; a liter is about a quart; a centimeter is about ½ inch; a metric ton is about same as an ordinary ton; a kilometer is about ¾ mile; a cubic centimeter is about a thimbleful. A nickel five-cent piece of our coinage is a handy key to metric measures and weights. It is two centimeters in diameter and weighs five grams.

PRECISE EQUIVALENTS.

1 acre equals .4047 hectar; 1 bushel, 35.24 liters; 1 centimeter .3937 inch; 1 cubic centimeter, .0630 cubic inch; 1 cubic foot, .0283 cubic meter; 1 cubic inch, 16.39 cubic cent.; 1 cubic meter, 35.31 cubic feet; 1 cubic meter, 1.358 cubic yards; 1 cubic yard, .7645 cubic meter; 1 foot, 30.48 centimeters; 1 gallon, 3.785 liters; 1 grain, .0648 gram; 1 gram, 15.43 grains; 1 hectar, 2.471 acres; 1 inch, 25.40 millimeters; 1 kilogram, 2.20 pounds; 1 kilometer, .6214 mile; 1 liter, .9081 quart (dry); 1 liter, 1.057 quart (liquid); 1 meter, 3.281 feet; 1 mile, 1.609 kilometers; 1 millimeter, .0394 inch; 1 ounce (avd.), 28.35 grams; 1 ounce (Troy), 31.10 grams; 1 peck, 8.809 liters; 1 pint, .4732 liter; 1 pound, .4536 kilogram; 1 quart (dry), 1.101 liters; 1 quart (liquid), .9464 liter; 1 sq. centimeter, .1550 sq. inch; 1 sq. foot, .0929 sq. meter; 1 sq. inch, 6.452 sq. cent.; 1 sq. meter, 1.196 sq. yards; 1 sq. meter, 10.76 sq. feet; 1 sq. yard, .8361 sq. meter; 1 ton (2000 lbs.), 1.017 metric ton; 1 ton (metric), 1.102 ton (2000 lbs.); 1 ton (metric), 2.205 ton (2240 lbs.); 1 yard, .9144 meter.

SMALL CRAFT, STORM AND HURRICANE WARNINGS.

Small Craft Warning.	N. E. Winds.	S. E. Winds.	N. W. Winds.	S. W. Winds.	Hurricane.
					

SMALL CRAFT WARNING.—A red pennant indicates that moderately strong winds are expected.

STORM WARNINGS.—A red flag with a black center indicates a storm of marked violence. The pennants displayed with flags indicate direction of wind—red, east-

erly; white, westerly; pennant above flag indicates wind from northerly quadrants; below, from southerly quadrants. By night a red light indicates easterly winds, white light below red, westerly winds. Two red flags with black centers indicate approach of tropical hurricanes.

No night small craft or hurricane signals are displayed.

Help in Case of Accidents

BURNS AND SCALDS.—Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water. Shock, which is always present in severe burns, requires the administration of stimulants. Pain is more constant and intense in burns than in any other form of injury, and requires sedatives, which should be administered by the medical attendant. Later on the appearances of inflammation and other complications are to be carefully watched for.

SUFFOCATION FROM INHALING ILLUMINATING GAS.—Get into the fresh air as soon as possible and lie down. Keep warm. Take ammonia—twenty drops to a tumbler of water, at frequent intervals; also, two to four drops tincture of nux vomica every hour or two for five or six hours.

TESTS OF DEATH.—Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead, the hole will remain; if alive, it will close up. Place fingers in front of a strong light. If alive, they will appear red; if dead, black or dark.

MAD DOG OR SNAKE-BITE.—Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whisky, brandy, etc.

FIRE IN ONE'S CLOTHING.—*Don't run*—especially not downstairs or out-of-doors. Roll on carpet, or wrap in woolen rug or blanket. Keep the head down, so as not to inhale flame.

FIRE FROM KEROSENE.—*Don't use water*, it will spread the flames. Dirt, sand, or flour is the best extinguisher, or smother with woolen rug, table-cloth, or carpet.

CINDERS IN THE EYE.—Roll soft paper up like a lamp lighter, and wet the tip to remove, or use a medicine dropper to draw it out. Rub the other eye.

FAINTING.—Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

STINGS OF VENOMOUS INSECTS, ETC.—Apply weak ammonia, oil, salt water, or iodine.

LIGHTNING.—Dash cold water over a person struck.

Help in Case of Accidents

DROWNING.—1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach, and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. **DON'T GIVE UP!** People have been saved after HOURS of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give WARM drinks, or spirits in teaspoonfuls, fresh air, and quiet.

SUNSTROKE.—There are two important indications for treatment—reduction of temperature and the use of stimulants. The patient should first be removed to a cooler spot if possible, or at least where shade can be secured. The treatment should be begun at once. The clothing about the neck and body must be either loosened or removed. Cold is particularly indicated in cases where there is great heat of the body, and delirium and convulsive movements are present. This means of reducing the temperature may be applied in the shape of cracked ice about the head and spine, or the use of cold water. If the heat of the body is very great, it may be necessary to wrap the patient in sheets wet with cold water. If there is, besides the great heat, evidence of serious depression, stimulants must be used while the cold is being applied.

HÆMORRHAGE.—The usual treatment is rest in the recumbent position; small pieces of ice should be freely swallowed, and the application of ice wrapped in a towel or in an ice-bag, or snow, cold water, etc., over the stomach; hot applications may be applied to the extremities.

FIRE IN A BUILDING.—Crawl on the floor. The clearest air is the lowest in the room. Cover head with woolen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Poisons and Antidotes

FIRST.—Send for a physician.

SECOND.—**INDUCE VOMITING**, by tickling throat with feather or finger. Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

Acids are antidotes for alkalis, and vice versa.

ACIDS, MINERAL.—Chalk, magnesia (plaster off wall in emergency), solution carbonate of soda, emollient drinks, fixed oils.

ACID, CARBOLIC.—Any soluble sulphate, such as magnesia.

ACID, HYDROCYANIC.—Fresh air and artificial respiration, with cold effusion. Ammonia by inhalation and intravenously in vein of leg.

ACONITE.—Emetics, stimulants, external and internal; keep up external heat, keep flat on back.

ANTIMONY TART.—Vegetable acids, such as tannic acid, catechu.

ARSENIC.—Freshly precipitated hydrated sesquioxide of iron made by adding magnesia to any iron solution.

ATROPIA.—Same as Belladonna.

BELLADONNA.—Emetics—mustard flour in water; give physostigma or pilocarpine; cold to head.

CANTHARIDES.—Emetics, emollient drinks, opiates by mouth and rectum, large draughts of water to flush kidneys.

CHLORINE WATER.—Albumen, white of egg, milk, flour.

CHLOROPFORM.—Fresh air, artificial respiration (inclining head down, pull tongue forward), brandy and ammonia intravenously in leg, the HYPODERMIC injection of 15 m. tincture of digitalis and 1-60 of a grain of atropine.

COLCHICUM.—Emetics, followed by demulcent drinks. If coma be present brandy, ammonia, coffee. Opium in large dose. Keep up external heat.

CONIUM.—Emetics, followed by stimulants external and internal.

CORROSIVE SUBLIMATE.—Albumen, white of egg (4 gr. sublimite require white of one egg), flour, milk. Equal parts of lime water and milk. Emetics, or evacuate stomach by pump.

Poisons and Antidotes

COPPER SULPH.—Yellow prussiate of potash or soap.

CROTON OIL.—Emetics; wash out stomach, followed by mucilaginous fluids, containing opium.

DIGITALIS.—Recumbent posture after emetics. Emetics and opium; give tincture aconite.

ELATERIUM.—Demulcent drinks, enemata of opium, and external heat.

HYOSCYAMUS.—Stomach pump, emetics, stimulants external and internal, physostigma and pilocarpine.

ILLUMINATING GAS.—Hypodermic injections of nitroglycerin are recommended by Kloman, of Baltimore.

IODINE.—Emetics and demulcent drinks, starch or flour diffused in water, opium and external heat.

LEAD SALTS.—Any soluble sulphate, either magnesia or soda, succeeded by emetics, and afterwards by opium and milk.

LOBELLA.—Stimulants externally and internally; external heat.

MORPHINE.—Same as opium.

NUX VOMICA.—30 grs. of chloral and 60 grs. of bromide of potash. Nitrite of amyl.

OPIUM.—Atropine hypodermically till respirations number 8 per minute. Stomach pump, stimulants, external and internal, brandy and coffee, cold affusion, ammonia to nostrils, galvanic shocks, compelling to move about, artificial respiration, electric brush. Permanganate of Potash.

OXALIC ACID.—Lime, not potash or soda.

PHOSPHORUS.—Sulphate of copper in emetic dose as chemical antidote. No oils. Emetics and purgatives.

POTASH AND SODA SALTS.—Dilute acetic acid, citric acid, lemon juice, fixed oils, demulcents, vinegar.

SILVER NITRATE.—Solution of common salt and demulcent drinks. Emetics.

STRAMONIUM.—Same as Belladonna.

STRYCHNINE.—Same as Nux Vomica.

TOBACCO.—Emetic, stimulants, external and internal, strychnine, external heat.

ZINC SALTS.—Carbonate of soda, emetics, warm demulcent drinks.

Mason Olcott Marries Miss Gibbons in India

Missionary and Head of Girls' School Wed

By cable from India came the news of the marriage there yesterday at Kolhapur of Miss Eleanor Haller Gibbons, daughter of the Rev. William F. Gibbons, professor of journalism in Pennsylvania State College, to Mr. Mason Olcott, son of Mr. and Mrs. Eben Erskine Olcott, of 322 West Seventy-fifth Street, New York.

Professor Gibbons, who announced the marriage, said that his other daughter, Miss Frances P. Gibbons, was maid of honor, and Mr. Meinte Schuurmans was best man.

Miss Gibbons, a graduate of Smith College, went to India in 1920 as an educational missionary of the Presbyterian Board of Foreign Missions. For the last year she has been principal of the Esther Patton Girls School at Kolhapur, in Western India.

Mr. Olcott after being graduated from Princeton in the class of '15 went at once to India as a short-term missionary of the Arcot Mission of the Reformed Church in America. He returned to America during the World War, serving as a Y. M. C. A. secretary and a lieutenant of coast artillery. Later he travelled through India with the commission on village education and has since taken post-graduate studies at Columbia University. He went back to the Arcot Mission in 1923 for Christian work in the village schools. He and Miss Gibbons met at a summer resort in the mountains frequented by missionaries and other educators during the hottest months. They will live at Vellore, North Arcot, after January 1.

Mr. Olcott's family is one of the oldest in New York. His father is president of the Hudson River Day Line and his older brother, Alfred, is vice-president of the company. Another brother is Dr. Charles T. Olcott, head of a hospital at Indian Wells, Ariz., where the Indians are cared for, principally those from the Navajo Reservation.

Miss Elvina L. Varet's Engagement Announced

John R. Martin to Wed Mrs. Eugene E. Varet's Daughter

Mrs. Eugene Emile Varet, of 125 Hicks Street, Brooklyn, announces the engagement of her daughter, Miss Elvina Louise Varet, to Mr. John R. Martin, son of Mr. I. J. Martin, of Manhattan. Miss Varet is the daughter of the late Eugene Emile Varet and a granddaughter of the late John Barry, who was one of the charter members of the New York Bar Association. She also is a great-granddaughter of the late Dr. Abraham J. Berry and of Louis Francois Varet, the latter a prominent French merchant of his day.

Mr. Martin is a graduate of Princeton, class of '15. He entered the Naval Reserve and later received his commission as ensign at Annapolis. His sisters are Mrs. Clarence W. Wood, of Manhattan, and Mrs. William O'Connor, of Short Hills.

Miss Varet's sister, Mrs. Charles Herbert Appleby, a bride of last September, will give a tea for her on next Sunday at her home, 1060 Park Avenue.

THEN RAIDS A RESTAURANT

**Arrests Two at Peter's, in Green-
wich Street, After Many Futile
Efforts to Enter in Disguise.**

A new scheme to obtain evidence of violations of the Volstead act was uncovered yesterday afternoon by Izzy Einstein and Moe Smith, prohibition agents, when two men were released in \$500 bail each by United States Commissioner Boyle on a charge of selling liquor at 130 Greenwich Street. The defendants are Robert Brown, alleged proprietor of the place, which Einstein said was known as "Peter's Restaurant," and Frank Wilson, a waiter.

"Several weeks ago," Einstein explained, "R. Merrick, Divisional Chief at prohibition headquarters, asked us to see what we could do about several places in the vicinity of the financial district suspected on being 'speak easies.' This restaurant was one of them. We started for it right away. We tried to get in under disguises, but the fellow at the door winked and said: 'Take 'em off; I know you.' We tried several other disguises, but each time the fellow only laughed at our disguises and wouldn't let us in.

Determined to Get In.

"We said to ourselves, 'We'll get in there,' and last Saturday we hung out in the neighborhood for hours, and that's what led to our getting the evidence. A man came out. He had a small package under his arm. I bumped against him. The package fell to the street. I said: 'Excuse me; I'll help you to pick it up.' He said: 'It's no use; it's gone.' He said it was whisky, so I picked up the bottom of the bottle, which contained a small amount of liquor, as evidence. When I offered to buy him another bottle, he said he got it inside. That was enough for us. We got a search warrant and descended on the place at noon today.

"There is a sort of room in the front, containing chairs and tables, you know, like a restaurant," continued Izzy. "But as we stepped in from the street a large bell began to ring furiously in the back, behind a thick partition. We tried to go through, but we could not budge the door. We had to chop it down, and then two other doors, all of which were reinforced with sheet steel.

"But we worked on those doors and banged them down. When we got to the back room about fifty people, fellows who appeared to be clerks and business men out for lunch, were seated there. We found Brown in there and we also found a suitcase full of whisky and gin. We arrested Brown. As we were leaving with him through the front door Wilson came in. He had another suitcase." We looked inside the thing and found it also was filled with liquor. We arrested him too."

Brown and Wilson will be arraigned for a hearing before the Commissioner today.

MISS REYNOLDS IS WED TODAY

Becomes Bride of Hugh Quigley
of Bellefonte, in St. James
Episcopal Church.

A pretty wedding was solemnized this afternoon in St. James' Episcopal church, at 4:30 o'clock, when Miss Elinora Reynolds, daughter of Mr. and Mrs. Samuel H. Reynolds, of this city, became the bride of Hugh Quigley, son of Judge Henry C. Quigley, and Mrs. Quigley of Bellefonte. It was a brilliant event.

The impressive ceremony of the Episcopal church was performed by Rev. Dr. C. G. Twombly rector of the church. The wedding marches were played by George Rodgers, organist. During the ceremony the choir of the church sang softly.

The bride was given in marriage by her father. She was attended by Miss Henrietta Quigley, of Bellefonte, as maid of honor; Mrs. W. Fred Reynolds Jr., of Bellefonte, as matron of honor; the Misses Charlotte Appel, Susan Appel, Nellie Appel, Kitty Lutz, Jane and Margaret Hopkins, as bridesmaids.

W. Fred Reynolds Jr. attended the bridegroom. The ushers were Samuel H. Reynolds Jr., brother of the bride; Philip D. Reynolds, Charles M. Scott and Ellis Keller, Bellefonte; Stewart Coryell, Williamsport Jack W. Codding, Jr., Bethlehem and James Q. Horne, Lock Haven.

The bride's gown was a handsome one of white satin brocaded in silver, with a chiffon overdress. It was made in tiers, each ruffle edged with pearls. It was trimmed with old lace which is an heirloom of the family. Her veil was also an heirloom. She also wore an old lace collar belonging to her ancestors. She carried an arm bouquet of white roses and lilies of the valley.

The maid and matron of honor were gowned in tangerine chiffon. The bridesmaids wore gowns of blue in three shades. The effect of the entire color scheme of the bridal party was unusually lovely. Their flowers were Delphinium and small orange colored roses.

Mrs. Samuel H. Reynolds, mother of the bride, was charmingly gowned in pale green and silver lace. She wore a large black hat and corsage of roses.

A reception attended by three hundred guests was held in the Iris Club. The decorations in church and Iris Club were in a color scheme of green and white, featuring quantities of large white peonies.

After an extended wedding trip Mr. and Mrs. Quigley will reside in Bellefonte. Among the out-of-town guests were Mrs. Waterman and Mrs. C. Eugene Montgomery, of Providence; aunts of the bride; Judge and Mrs. Henry C. Quigley, Bellefonte, parents of the bridegroom; Mr. and Mrs. W. Fred Reynolds and Mrs. W. Fred Reynolds Jr., Bellefonte, Edwin Quigley, Lock Haven Misses Mary and Helen Quigley, Lock Haven, John Griffin, Lock Haven, Miss Margaret Coryell, Williamsport.

Ira Bowman's orchestra played during the reception. The bride was graduated from Cathedral College, Washington and has since studied painting in New York.
